

New Benefits Identification Card Design Coming Soon

In commemoration of Medi-Cal's 50th anniversary, the Benefits Identification Card (BIC) is being redesigned.

Newly-eligible recipients and recipients requesting replacement cards will receive the new design pictured here, but other recipients will continue to use cards with a design that features the California state seal.

As a reminder, providers should:

- Accept both the new and old card designs.
- Continue to verify eligibility, as possession of a Medi-Cal BIC does not guarantee eligibility.
- Refer to the *Eligibility: Recipient Identification* section in the Part 1 provider manuals for more information.
- Watch for further updates, including the new design's launch date, on the Medi-Cal website at www.medi-cal.ca.gov.
